

## **The Men's Group @ The Centre**

### **Drop In!**

**Leader: Rich Harris    2<sup>nd</sup> Monday Monthly 7:00 – 8:30 PM**

Men were designed by God to do many things. Two of those things are to walk in humility and take the authority granted to them – so often today men do neither.

Now more than ever men will be called into their destiny – to fulfill their portion of the work in the Kingdom of God. The enemy has a different plan for men. He moves many men down a different path which diverts them from the battle. In France, during World War II, many of our paratroopers were dropped in behind enemy lines. As a result of bad weather and misguided drops, these men became scattered and spread out – not an effective fighting group. One by one most of these paratroopers found their comrades, re-grouped and headed for the battle lines. Men today are no different. We are scattered in a lot of different places. We now need to re-group and move to the battle lines where we belong.

So, staying with that theme, The Men's Group will be a place whereby we can begin to address our location in life (where we have landed on the ground after jumping from the plane), our current state of affairs (are we wounded?), and then what direction to move (where is the battle that God is calling us to now?). Knowing these things will bring us into greater maturity and strategies for our place in God's army.
